

## **ROTATOR**

**72.12.07**

Looking for a little Speed and Excitement?

Try Cyclone's new Rotator and you will not be disappointed. Designed for ages 6 - 12 years old, it requires muscles and endurance.

Cyclone's unique rotative device will spin with one to four kids. Our spinning component is totally hidden inside a galvanized steel central post making it difficult to vandalize.

In other words : It's real tough action !

**CYCLONE**

The logo for Cyclone, featuring the word "CYCLONE" in a bold, purple, sans-serif font. Below the letter "O" is a stylized red graphic of a cyclone or storm, consisting of several curved lines that spiral downwards.

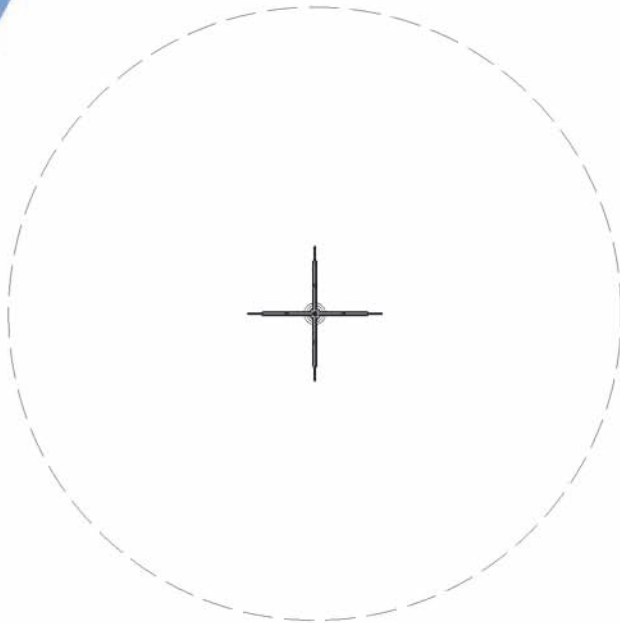

### Installation options:

- Poured in concrete.
- As an option, galvanized steel frame for a surface mounted installation.

### Surfacing:

- Rotator has a maximum fall height of 20 inches.
